Intuit® QuickBooks® Point of Sale

A Complete Retail Management Solution for Your Store

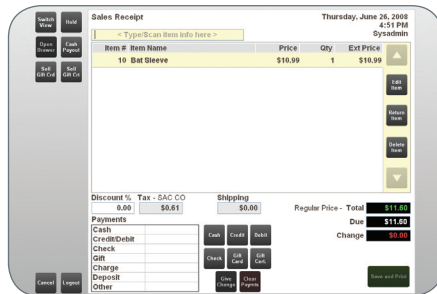

10 Reasons Why QuickBooks Point of Sale

- 1. Ring up sales quickly and accurately.**
Give your customers a choice by accepting multiple forms of payment, including credit, debit and gift card sales. Add a barcode scanner for even faster service and improved accuracy.
- 2. Tighten control of inventory.**
QuickBooks POS makes inventory tracking effortless and automatic. As you ring up sales, inventory data is recorded and stored. You always have accurate, real-time information about what's selling, what's not, what's on hand and what needs to be reordered.
- 3. Generate insightful reports for better business decisions.**
Make smart decisions, including setting optimal business hours and staffing levels, track best and worst sellers, and gain critical intelligence from store close reports.
- 4. Build stronger customer relationships.**
QuickBooks POS will tell you who your best customers are, what they buy and how to keep in touch with them. You can generate mailing lists and labels. And, manage automatic customer rewards or discounts to stimulate repeat business!
- 5. Improve product pricing to increase profits.**
You can use QuickBooks POS to get the most from your pricing strategies. Easily customize product pricing and accurately calculate markups, markdowns and discounts by item.

What Retailers Are Saying

Simple Cashier View

"Finally a feature we have been eagerly awaiting, The Simple Cashier view. See only what you need to enter sales quickly and with ease using your touch screen display. It lets the cashier focus on sales based transactions."

— Isaac Cushman, Green Mountain Computer Services

Storefront Web Store

"The addition of Webstore makes for a seamless physical store and e-commerce solution. We have two stores and now also sell online. This is a great addition to Intuit POS."

— Bill Lozano, Atlantic Kayak Tours
